The Spring Creek Watershed Association is a broad-based stakeholder initiative that was created as a result of the International Countryside Stewardship Exchange.

### Mission Statement

The Spring Creek Watershed Association promotes actions that protect and enhance the quality of life, environment, and the economy throughout the watershed while maintaining and improving the high quality of Spring Creek and its tributaries.

### Spring Creek Watershed Association Meetings

The Spring Creek Watershed Association meets from 7:30 am to 9:30 am on the 3rd Tuesday of each month at: Patton Township Municipal Building 100 Patton Plaza Drive State College, PA 16803

### Strategic Goals

Increase public awareness of watershed issues through education and communication.

Develop a vision for the future and implement it.

Maximize public involvement and participation in actions to protect and enhance the watershed.

Measure watershed quality and set goals for improvement.

Increase intergovernmental and interorganizational cooperation.

Promote business and economic development actions that support the mission of the Spring Creek Watershed Association.

# THE SPRING CREEK WATERSHED ASSOCIATION WATER RESOURCES MONITORING PROJECT

[www.springcreekmonitoring.org](http://www.springcreekmonitoring.org)

WRMP monitors Spring Creek and its tributaries. Find the annual reports on their web site.

Each month the Spring Creek Watershed Association invites a speaker from the community to share information with the group. Check their web site at [www.springcreekwatershed.org](http://www.springcreekwatershed.org) for a list of upcoming speakers.
